

TIMOTHY LUKOLO

ARCHITECTURAL TECHNOLOGIST (Bygningskonstruktør) | BIM COORDINATOR | AI | DIGITAL CONSTRUCTION

+45 53 63 96 73 | luk1-tim@outlook.com | linkedin.com/in/timothylukolo

Portfolio: <https://www.luks.dk/> | Ishøj, Denmark

PROFESSIONAL PROFILE

Architectural Technologist (Bygningskonstruktør) with a Bachelor of Architectural Technology and Construction Management and four years of recent experience supporting large pharmaceutical construction projects. Experienced in Revit modelling, BIM coordination, technical drawings, multidisciplinary clash detection, RFIs, construction site support and as-built documentation. Brings a practical understanding of construction, structured project coordination and a strong focus on clear communication, accurate information and buildable solutions.

CORE & TRANSFERABLE SKILLS

BIM and Revit • Multidisciplinary coordination • Construction and site support • Technical and quality documentation • Planning and issue follow-up • Hygiene and safety procedures • Independent service delivery

PROFESSIONAL EXPERIENCE

Architectural Technologist / BIM Coordinator | Novo Nordisk Engineering (NNE), Denmark | Jan 2022 – Jan 2026

- Produced and maintained Revit models, technical drawings and coordinated design documentation for pharmaceutical construction projects in Kalundborg.
- Coordinated architectural, structural and MEP models; used Navisworks Manage for clash detection, reporting and follow-up with discipline teams.
- Worked with engineers and contractors on RFIs, constructability questions and verified design or site changes.
- Recorded field observations, punch-list items and corrective actions in Dalux; supported QA/QC and HSE follow-up.
- Maintained revision control and prepared as-built models and digital BIM handover documentation.

Selected projects: PPV purification facility and M3 manufacturing facility, Kalundborg.

Intern / Student Assistant – Architectural Modelling and Design | Dorte Mandrup Architects | Jan 2021 – Dec 2022

- Supported Revit modelling, construction drawing production and technical design documentation for Kaj16, Gothenburg, and Beckmann Tower & Vilhelm House, Copenhagen.

Cleaning Assistant | Copenhagen Municipalities, Denmark | 2014 – 2022

- Provided daily cleaning in municipal facilities according to cleaning schedules, hygiene procedures, safety requirements and quality checklists; worked independently across locations.

Cleaning Assistant – Office Cleaning | Renell, Denmark | Dec 2015 – Jan 2019

- Completed professional office cleaning at client sites, following site-specific routines and quality procedures.

Cleaning Assistant – Office Cleaning | Trasbo, Denmark | Mar 2015 – Jan 2016

- Delivered office cleaning independently in line with client hygiene and safety requirements.

Technical Assistant – CAD & Structural Drafting | Voronezh Design Company, Russia | 2010

- Converted hand sketches into CAD plans, elevations and sections, prepared drawings and completed basic structural calculations.

EDUCATION

Bachelor of Architectural Technology and Construction Management | KEA, Copenhagen | 2019 – 2022

Professional Bachelor / Professionsbachelor i Bygningskonstruktion, 210 ECTS. Studies included construction planning, design consultancy, renovation and facility management.

Building Engineering – Industrial and Civil Construction | Voronezh State University, Russia | 2006 – 2011

Five-year Building Engineering programme.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

PRINCE2® Project Manager, Version 7 | PeopleCert | Mar 2026

Foundation and Practitioner certification in project governance and delivery methodology.

Good Manufacturing Practice (GMP 1 & 2) | Itucation | Apr–May 2026

SOPs, quality documentation, deviations, self-inspection, qualification, validation and cleanroom hygiene.

Application of Artificial Intelligence | Itucation | Aug–Sep 2026

Six-week course in responsible AI, repeatable workflows, AI agents, ChatGPT Business, Microsoft 365 Copilot and Gemini Pro.

Internal Project Management Modules | NNE | Dec 2023

Internal PMBOK-based project management training.

Cleaning Quality / DS INSTA 800 | TEC | Dec 2021

Cleaning-quality assessment and planning against agreed cleaning standards.

Van Haulage Operator Training (Vognmandsuddannelsen til varebil) | DEKRA | Jun 2026

Completed van-haulage operator training.

SELECTED PROFESSIONAL & ACADEMIC PROJECTS

PPV – API purification facility, NNE: Revit models, multidisciplinary clash detection, RFI support and BIM handover.

M3 – manufacturing facility, NNE: Construction coordination, site observations, Dalux issue tracking and model updates.

Kaj16 and Beckmann Tower & Vilhelm House, Dorte Mandrup: Architectural modelling and coordinated drawing production.

Valby Langgade 207, KEA final project (2022): Coordinated residential infill proposal in Revit; Sigma Estimates costing and Microsoft Project scheduling.

TECHNICAL & PRACTICAL TOOLS

BIM & design: Revit, Navisworks Manage, BIM 360, Dalux, 2D CAD, Twinmotion, clash detection and as-built documentation.

Project & quality: Microsoft Project, Sigma Estimates, RFIs, revision control, issue tracking, GMP/SOP training and cleaning quality.

Office & AI: Microsoft Excel, Word, PowerPoint, ChatGPT Business, Microsoft 365 Copilot and Google Gemini Pro.
